

Training With Us

"We want you to build a career with us, long term"

This means you will have the opportunity to progress and develop within the firm. All of the Partners trained here, something we're very proud of. We want a trainee with long-term vision and ambition.

- Your training contract will cover all areas of the firm's work, to ensure you have a comprehensive training and to allow you to experience as broad a spread of work that we do as possible.
- We will regularly review your performance and you will be supported in all aspects of your work.
- We will encourage you to develop your knowledge and skills, through exposure to different types of work and further training opportunities.
- Whilst training with us, you will also complete the Professional Skills Course to give you further training in finance and business skills; in client care and professional standards; in advocacy and communication.
- We want you to develop business and leadership skills and to play an active role in the development of the firm.
- We want you to have a fully rounded experience of the work we do, the clients we work for and, crucially, how we deliver our service.
- One of the Partners will be your principal supervisor, but you can ask for help or guidance from any member of the firm at any time.
- As a niche firm, all partners and staff are friendly and approachable, and everyone knows everyone else. You're not just another cog in a big wheel!
- We want you to become the best Solicitor you can be – we aim for excellence in all the work we do.
